The school house in No. 5 district has been extensively repaired. The work is very complimentary to the contractor, and very satisfactory to the school board and the town.

The school committee has been very successful in securing the services of both competent and satisfactory teachers, and in fact declare that this year has been on the whole very successful.

Owing to the large number of absentees much of the efficiency of the teachers has been lost, and in order to make the succeeding years much more successful and profitable the school committee solicits the cooperation of the parents, both in visiting the school and noting carefully the progress of the children, and also in taking every available opportunity to have the child present at every session.

The school committee advises the parents to become acquainted with the state law in regard to the compulsory attendance of children under sixteen at school.

Respectfully submitted,

MABEL C. SPAULDING,

MATTIE J. CAREY,

NATHAN PUFFER,

Members of School Board.
